

Boukhmili Adnane

Full-Stack Web Developer

adnaneboukhmiliwork@gmail.com | +212 6-31-02-31-60 | Taza, Morocco | linkedin.com/in/boukhmili

SUMMARY

Full-Stack Web Developer with hands-on experience developing web applications using Laravel, PHP, MySQL, React.js, and Node.js. Experienced in backend development, RESTful APIs, database-driven applications, dashboards, and web application testing using PHPUnit, Jest, React Testing Library, Cypress, and Postman. Familiar with Git, GitHub, Docker, Agile, and Scrum. Seeking a Full-Stack or Backend Developer position.

PROFESSIONAL EXPERIENCE

Rakops Solutions, Website Tester (Intern) 10/2024 – 06/2026 | Taza, Morocco

- Designed and developed automated test suites from scratch for Laravel and React.js applications using PHPUnit, Jest, React Testing Library, and Cypress, covering functional, E2E, regression, and edge-case scenarios.
- Performed API, authentication, authorization, form validation, database, and security testing, using Postman and OWASP ZAP to identify defects and potential vulnerabilities.
- Reported and reproduced bugs, collaborated with developers to verify fixes, maintained automated tests, and used Git/GitLab and Laravel logs throughout the testing and debugging workflow.

Freelance, Web Developer — Part-time Project 07/2025 – 08/2025 | Taza, Morocco

- Developed a company profile web application using Laravel and React.js, including backend functionality and frontend integration.
- Built a content management dashboard and implemented/tested features for website content management and usability.

Digital Partnership Group, Back-End Developer (Intern) 11/2023 – 02/2024 | Casablanca, Morocco

- Developed backend features using Laravel, PHP, MySQL, and Node.js.
- Implemented server-side functionality and database operations for web applications.
- Developed and maintained backend components according to project requirements.
- Collaborated with the development team to test and improve application functionality.

National Agency for Water and Forests, Full-Stack Web Developer (Intern) 12/2022 – 01/2023 | Taza, Morocco

- Developed a full-stack web application for managing payment slips.
- Implemented application functionality for creating, managing, and tracking payment-slip records.
- Developed database-driven features and user interfaces according to organizational requirements.
